

Option 1

Synopsis – All grades on SHS site. Two story building. K-5 on one floor, 6-12 on other floor. Athletics move to CES site. Admin, bus garage, preschool move to SES site.

- Considerations to think about – How does Stevenson and Carson feel about their schools? We would need to have community partnerships.

Pros	Cons
Shared resources between grades	Organization – how to accomplish idea
Utilization of staff to maximum efficiency	Transportation of students to CES site for sports
Community hub – performing arts, additional gym	Parking
Minimize student transitions in regards to transportation	Carson loses their school
Possibly less utility costs	Possibly more utility costs
Carson becomes a community center	Over exposure of older kids to younger kids
Exposure of older kids to younger kids (mentor program)	Demolition/remodel costs to complete building
SES could hold supplemental classes	Infrastructure cost
	Elementary Playground Space
	Gym space P.E. and athletics
	Tennis Courts
	Green space on that campus
	Practice time if practices are at CES

Option 2

Synopsis – One location but multiple buildings. PreK-5 in SES building, 6-8 in a new building on SHS site, 9-12 in SHS building. Athletics and bus garage move to CES site.

- Considerations to think about – What is the growth of Carson vs Stevenson?

Pros	Cons
Middle school could be done in phases	Loss of school in Carson
Easier to accomplish – add on to SES	Loss of long range savings
Efficiency of staff and resources	Transportation of students to CES site for sports could be a non issue
Community hub – performing arts, additional gym	Parking
Minimize student transitions in regards to transportation	Infrastructure cost
Possibly less utility costs	Elementary Playground Space
Carson becomes a community center	

Option 3

Synopsis – ~~Keep the buildings currently in use and do repairs to bring them up to code. Switch SES and CES grades (K-5 to CES, 6-8 to SES).~~ Keep three buildings and do repairs to bring them up to code. Pre-K at SES; 6-8 at WREC; 9-12 at SHS.

- Considerations to think about – Could CES site accommodate younger students and SES older students? Switch grades back (K-5 at SES, 6-8 at CES)?

Pros	Cons
Possibly the quickest to accomplish	Repairing minimal items could lead to bigger repairs and more costs. Not using CES for classrooms so reduces this issue
Minimal repairs could be cheapest	CTE Program
Carson keeps a school-WREC in conversation	
Separation of grades	
Fields and gyms are utilized –regulation gym at WREC	
CES space utilized of other purposes (at what cost of improvements vs revenue)	

Long Range Consideration

- As SES ages and needs major work, CES could be rebuilt to provide a PreK-8 campus in Carson

September enrollment by grades.

K	1	2	3	4	5	6	7	8	9	10	11	12
77	64	76	69	72	72	68	66	66	62	87	64	75
Total for K-5 = 430						Total 6-8 = 200			Total 9-12 = 288
